UnitedHealthcare Donates \$200,000 to Nonprofits in Ohio

Funding is part of UnitedHealthcare's \$11.4 million in Empowering Health grants focused on expanding access to care and addressing the social determinants of health for people in underserved communities

COLUMBUS, Ohio (July 22, 2021) — UnitedHealthcare, a UnitedHealth Group (NYSE: UNH) company, is awarding \$200,000 in [Empowering Health](#) grants to two community-based organizations in Ohio to expand access to care and address the social determinants of health for uninsured individuals and underserved communities.

In total, UnitedHealthcare is donating \$11.4 million through Empowering Health grants across 18 states and the District of Columbia. The grants will assist individuals and families experiencing challenges from food insecurity, social isolation and behavioral health issues, and support local health promotion and health literacy efforts.

Grant recipients in Ohio include:

- [Ohio Children's Alliance](#) – \$120,000 to improve access to comprehensive care for kids and families by linking Nationwide Children's Hospital in Columbus and ProMedica Russell J. Ebeid Children's Hospital in Toledo with community mental health centers and resources, helping prevent psychiatric hospital admissions and decrease psychiatric readmissions.
- [Ohio Suicide Prevention Foundation](#) – \$80,000 to deliver evidence-based Assessing and Managing Suicide Risk training to providers of substance misuse treatment.

“It is critically important that we partner to better support individuals in achieving physical and behavioral health and wellness,” said Dr. Srinivas Merugu, chief medical officer, UnitedHealthcare Community Plan of Ohio. “Through the Empowering Health grants, we are working with local organizations in addressing social and economic factors to enhance awareness, training and infrastructure.”

Good health encompasses more than simply visiting a doctor's office. According to the American Journal of Preventive Medicine, nearly 80% of what influences a person's health relates to nonmedical issues such as food, housing, transportation and the financial means to pay for basic daily needs. And for so many, the global pandemic has caused additional social and economic challenges that continue to affect healthy behaviors and exacerbate health disparities.

Since launching its Empowering Health commitment in 2018, UnitedHealthcare has now invested more than \$40 million in Empowering Health grants reaching more than 6 million people through partnerships with community-based organizations in 29 states.

UnitedHealth Group, including UnitedHealthcare and Optum, and its affiliated companies, is committed to reducing health disparities and building healthier communities by supporting programs to improve access to care and address key determinants of health. In Ohio, this includes more than \$8.6 million in contributions from 2018-2020 representing its businesses, foundations and employees.

Additionally, UnitedHealth Group has invested more than \$500 million in affordable housing communities since 2011, partnered with food banks and meal-delivery services, and in 2019 joined with the American Medical Association to standardize how social determinants of health data is collected and used to create more holistic care plans.
